5 Limiting Beliefs that Can Hold Us Back (www.OnlineHeartPlan.com)	
Limiting beliefs	Jailbreak Truths
Obscurity – I’m hiding Talking about the desires of my heart feels too intrusive, painful. I’ve failed before; felt rejection.	I’m Transparent (#1) God wrote the desires of my heart. I have a book, a destiny, an area of favor. “I’m a son, My dream can come true!”
I’m not Spiritual. “Gifted” people hear from God and have seer gifts, but I don’t have those gifts. It’s not me.	I can be a Seer (#2) Anyone who wants to, can “see” what Father is doing – it is a prophetic skill we can “learn!”
Independent Orphan I’m too busy; my business is going great. I already have my purpose.	I Am a Son who Co-labors (#3) I have a book. God wants to work with me, Anoint me, help me, multiply me. Business without Him (and a team) is foolish!
I am Spiritual. (Pseudo Spirituality) Going into Ministry and living on offerings is more spiritual than business.	My Life is a Business (#4) God Calls people into all 7 Mountains. It’s where we’re fulfilled; where our cashflow is. “Creating value” others want to buy is spiritual!
I’m Little (an ant) I stick to my little world, stay in my lane, and don’t worry about things too high for me. “False Humility”	I can Change the world (#5) I have a role in Reformation of Nations. The business expression of my book is strategic in God’s Kingdom. We’re blessing Nations!

These are more the personal transitions I went through (theological paradigms)

Heart Plan Mental Model Makeovers	
From Heart Boundaries	Freedom to Flourish
Strategies	
Rapture and Revival Kingdom is building churches Making disciples (before the end)	Reformation Kingdom is changing cultures in 7 Mtns Discipling Nations (Bringing Heaven to Earth)
Presumption is sin and leads to failure Planning is presumptive	Dreams do come true! I keep a plan current to make it come true
Identity and Initiative	
God wants surrender, obedience, faith, patience I will not act out of my soul in my own strength	God wrote the desires in my heart He welcomes initiative from sons
I'm a hamster on a wheel with divine discontent. Just praying for breakthrough, waiting for miraculous intervention	I'm in a Kingdom transition that affects many I'm exploring my heart and making a plan I'm not surprised by warfare
Identity - I'm a sheep who serves; I'm a sinner saved by grace I must decrease so that others may increase	Identity - I'm a son with a book; (Seers and Doers) I'm part of Council - I'm displacing fallen sons; I'm created in my Father's image
Experiencing Resurrection, Managing change	
God's plan never fails He will never leave or forsake me	Every plan needs contingencies (its wisdom) The future is not scripted
80% of businesses fail in 18 months My dream could easily fail	Businesses that survive report making changes to their business plan (living model vs. static plan) Managing change is what sons do (Pro 25:2)
Death of a Vision At least I tried, Opportunity is gone "I'm toast"	Resurrection welcomes change Nothing unblocks old mindsets, and frees the heart like Failure (Jn 12:24)
Value / Wealth Creation	
I impart spiritual truth to Christians (hobby) Vocation funds ministry hobby	I create practical value anyone would "buy" (business) Business and ministry are coming together
God provides for His servants He is Jehovah Jireh; we trust Him, wait	Sons have authority to create value on earth And loose wealth from heaven
Apostolic Accountability Helping others get with the (my) program	Fathers See what God wrote in hearts Shows them how to achieve their dream (practical)
