

This expands themes by David Sorenson at <https://stopworldcontrol.com/zionist/> (read this first) and John Garfield at [The USA Book](#).

I am optimistic about President Trump's practical progress in defeating the Cabal and Making America Great Again (MAGA). My reason is that it's what Father is doing. The USA is called to bless nations, to be the light and the glory that shines a light on Father's Reformation. We are called to be the home of sons and daughters who freely and bravely are excited to bring Heaven to Earth. Trump and the USA are templates for sons of God in every nation to take their countries back from control to freedom. The same can be said for every mountain of culture including business. Sons are the [Isa 59:19](#) Flood of righteousness that puts evil to flight.

**Additional Thoughts** regarding the cabal being bigger than just Israel and Zionism:

- The cabal does have tracks in the State of Israel. Zionism and antisemitism camouflage their deeds.
- It's embarrassing to see pastors champion Zionism, the rapture, and rebuilding the synagogue of Satan. It's easy to see the Zionist recruitment of American pastors by Israel.
- The cabal has a strange affiliation with Satanic rituals, the occult, drugs, and child sex trafficking.
- Although Israel is essentially cabal occupied territory the cabal tracks lead to the Mossad, the CIA and terrorist organizations like Hamas (all puppets of a higher master).
- Leaders around the world have sold their souls for money or sex via Epstein (the US congress, the UN, the EU, and most European countries).
- The banking arm of the cabal has sponsored both sides of every war since Napoleon. That has morphed to incentivizing war in Ukraine and Palestine. So far, Trump has stopped eight armed conflicts between nations around the world.
- News media in the US and Europe are so cabal compromised that nearly everyone sees them as "fake news." They are being replaced by independent investigative journalists in the mold of Tucker Carlson, Candace Owens, and Megyn Kelly who are not afraid to expose evil.
- The mainstream no longer accepts the media/government sponsored narratives for the JFK assassination, the 911 twin towers, 2020 election results, Covid, Vaccines, Charlie Kirk's execution, etc. "Q" gave us hints to research this narrative fraud.
- Religion is an easy target for the cabal, whether Judaism, Christianity or Islam. The Schofield Reference bible used to insert futurism into Christian Doctrine is a great example. Once you tweak the theology, religious leaders become sponsors of cabal narratives like Zionism.

The following categories and bullets are all areas where Trump is the Cyrus point person for exposure and Reformation.

**Pharmaceutical/Medical Control:**

- The cabal controls major pharmaceutical companies and regulatory agencies (FDA, CDC, WHO), using health crises to consolidate power, mandate compliance, and generate massive profits while suppressing effective treatments that threaten their revenue streams.
- The medical-industrial complex operates as a control mechanism through vaccine mandates, digital health passports, and centralized medical records that track and control populations.

**Big Tech Censorship & Surveillance:**

- Silicon Valley tech giants (Google, Facebook, Twitter pre-Musk, YouTube) function as the cabal's information control apparatus, censoring dissent, manipulating search results, and conducting mass surveillance.
- Social credit systems being implemented globally (modeled on China's system) restrict freedom based on compliance with cabal narratives.
- AI and data mining operations harvest personal information to predict, manipulate, and control behavior at scale.

**Educational Indoctrination:**

- The cabal captured education systems (K-12 and universities) to indoctrinate rather than educate, promoting ideologies that undermine family, faith, national sovereignty, and critical thinking.
- Common Core, critical race theory, and gender ideology represent systematic efforts to reshape children's worldview away from biblical values.
- Student debt creates financial slavery, binding graduates to the system while activist professors produce generations hostile to American values.

**Food Supply & Agriculture:**

- Monsanto/Bayer and agribusiness conglomerates control seed patents, pesticides, and the food supply, promoting chemicals and GMOs that compromise health while eliminating independent farmers.
- Attacks on meat production, promotion of lab-grown "food," and climate regulations targeting agriculture aim to control populations through food dependency.
- Bill Gates became the largest private farmland owner in America while pushing synthetic meat and insect protein.

**Climate/Environmental Agenda:**

- The "climate crisis" serves as justification for carbon taxes, ESG scores, restricted travel, energy control, and wealth redistribution from productive nations to global institutions.
- Attacks on fossil fuels while promoting unreliable "green" energy create energy dependency and economic weakness.
- Environmental regulations destroy small businesses while exempting cabal-connected corporations.

**Central Banking & Currency Control:**

- Central banks (Federal Reserve, ECB, Bank of England) create debt-based money that enslaves nations through compound interest while enriching banking elites.
- Push toward CBDCs (Central Bank Digital Currencies) enables total financial surveillance and control—ability to freeze accounts, restrict purchases, and impose negative interest rates.
- IMF and World Bank use debt to control developing nations, forcing policy changes that benefit global corporations.

**Human Trafficking Networks:**

- Open borders serve cabal interests by facilitating human trafficking, drug smuggling, and importing dependent populations that vote for expanded government.

- NGOs and UN agencies participate in trafficking under guise of "refugee resettlement" and "humanitarian aid."
- Unaccompanied minors crossing borders often disappear into trafficking networks with government complicity.

#### **Judicial & Law Enforcement Capture:**

- Soros-funded district attorneys in major cities refuse to prosecute crimes, creating chaos while imprisoning political opponents.
- Two-tiered justice system prosecutes patriots while protecting cabal operatives.
- FBI, DOJ, and intelligence agencies weaponized against citizens who oppose the agenda.

#### **Corporate Consolidation:**

- BlackRock, Vanguard, and State Street own controlling shares in virtually every major corporation, creating unified cabal control across industries.
- ESG (Environmental, Social, Governance) scores force companies to adopt woke policies or lose access to capital.
- "Stakeholder capitalism" replaces shareholder accountability, allowing unelected elites to impose social engineering through corporate policy.

#### **Media Control & Psychological Operations:**

- **Operation Mockingbird Legacy:** CIA's documented program to infiltrate and control major news organizations continues today—journalists, editors, and media executives function as intelligence assets advancing cabal narratives rather than reporting truth.
- **Six Corporations Control Everything:** Massive media consolidation means six corporations (owned by BlackRock/Vanguard) control 90% of what Americans read, watch, and hear—ensuring unified messaging across thousands of outlets that appear independent but read from the same script.
- **Coordinated 4AM Talking Points:** Major outlets receive daily narrative instructions, resulting in hundreds of news stations using identical phrases and framing within hours—"threat to our democracy," "without evidence," "mostly peaceful protests" repeated verbatim across networks proves centralized control.
- **Psychological Operations (PSyOps):** Media functions as psychological warfare apparatus using fear, repetition, emotional manipulation, and trauma to bypass critical thinking and induce compliance—COVID coverage being prime example of coordinated terror campaign.
- **Narrative Over Truth:** Modern "journalism" abandoned objective reporting for narrative enforcement—facts that contradict the approved story are suppressed, context removed, and dissenting voices deplatformed regardless of credentials or evidence.
- **Fact-Checkers as Narrative Police:** Facebook, NewsGuard, and "independent fact-checkers" operated by cabal-funded organizations (often Soros money) label truth as "misinformation" while protecting obvious lies that serve the agenda.
- **Wikipedia & Information Gatekeeping:** Wikipedia editors (often paid operatives) control information on key topics, making it impossible for truthful edits to survive on political, medical, or historical pages that expose cabal operations.
- **Academic-Media Complex:** Universities train journalists in activism rather than reporting, producing ideologically captured graduates who see their role as "comforting the afflicted and afflicting the comfortable" rather than pursuing truth.

- **Intelligence Agency Control:** All major media organizations maintain deep ties to CIA, FBI, and intelligence agencies—Anderson Cooper (CNN) was a CIA intern, Operation Mockingbird never ended, and the national security state controls narrative through classification, leaks, and embedded operatives.
- **Crisis Actors & Staged Events:** Documented use of same individuals appearing at multiple "unrelated" events, green screen backgrounds, crisis simulation companies, and media blackouts on inconvenient evidence suggests some major incidents manufactured or manipulated for narrative purposes.
- **Predictive Programming:** Entertainment and news plant ideas, normalize concepts, and prepare populations for planned events months or years in advance—making actual events feel inevitable or expected when they occur.
- **Gaslighting at Industrial Scale:** Media deliberately contradicts reality, denies what people saw with own eyes, and pathologizes those who notice—"don't believe your lying eyes" became explicit strategy during COVID and 2020 riots.
- **Memory Holing:** Stories that don't serve narrative simply disappear—Epstein client list, Hunter Biden laptop, vaccine injuries, election irregularities, Ukrainian biolabs... vanish from coverage while manufactured scandals dominate cycles.
- **Selective Outrage Manufacturing:** Media determines what society should care about through coverage volume—identical situations receive opposite treatment based on political usefulness (compare riot coverage based on cause).
- **Anonymous Sources & Circular Reporting:** Media publishes leaks from "anonymous intelligence officials," then politicians cite media coverage as justification for action—creating circular validation of manufactured narratives (Russia collusion hoax being prime example).
- **Mockingbird Extends to Entertainment:** Late night hosts, sitcoms, movies, and streaming content all push identical political messaging—normalizing degeneracy, mocking faith, promoting division while making resistance seem fringe.
- **Think Tanks & Narrative Creation:** CFR, Brookings, Atlantic Council, and other cabal-funded institutions generate "expert opinion" and policy papers that media presents as neutral research rather than paid propaganda.
- **Social Media Algorithmic Control:** Platforms don't just censor, they algorithmically suppress reach of unapproved voices while amplifying cabal messaging—making truth invisible while flooding feeds with propaganda.
- **Astroturfing & Fake Grassroots:** Media portrays manufactured movements as organic uprisings—paid protesters, bot networks, and coordinated campaigns presented as spontaneous public sentiment.
- **Demoralization Campaigns:** Constant negativity, promotion of hopelessness, and suppression of positive news serves specific purpose—demoralized populations don't resist, don't organize, and accept tyranny as inevitable.
- **Trauma-Based Mind Control:** Repeated traumatic news cycles (school shootings, terrorist attacks, pandemics) keep populations in fight-or-flight mode, preventing rational analysis and making people dependent on authority for safety.
- **The Overton Window Shift:** Media systematically normalizes previously unthinkable positions by introducing them as "fringe," then "controversial," then "debatable," then "mainstream"—homosexuality to gay marriage to drag queen story hour to child gender transition represents deliberate 40-year window shift.

- **Controlled Opposition:** Media elevates false alternatives and limited hangouts to contain dissent—allowing surface-level criticism while protecting core cabal operations and preventing genuine resistance from gaining traction.
- **Semantic Warfare:** Media controls language to control thought—"undocumented workers" vs "illegal aliens," "gender-affirming care" vs "child mutilation," "peaceful protest" vs "insurrection" based on political alignment.
- **Statistical Manipulation:** Polls designed to manufacture consent rather than measure opinion—oversampling Democrats, framing questions to get desired answers, then using results to claim "most Americans support" whatever agenda being pushed.
- **Expert Manipulation:** Trotting out "experts" and "doctors" who are actually activists with credentials—white coats used to sell narrative while dissenting experts with superior credentials labeled "fringe" or deplatformed.
- **Two Minutes Hate Targets:** Media coordinates mob outrage against designated enemies—Nick Sandmann, Kyle Rittenhouse, J6 protesters, anti-vaxxers receive coordinated demonization to discourage others from similar resistance.
- **Bread and Circuses:** Sports, celebrity gossip, and entertainment news dominate coverage to distract from real issues—keeping population focused on trivia while cabal advances agenda unopposed.
- **The Ministry of Truth:** Biden administration's "Disinformation Governance Board" and similar efforts worldwide reveal desire to formalize and legalize what they already do—government control of "acceptable" information.
- **Trump Derangement Syndrome Manufacturing:** Coordinated 24/7 negative coverage, anonymous source hitpieces, and apocalyptic framing of routine policy kept half the country in state of manufactured panic for years—proving media's ability to induce mass psychosis.
- **Why Independent Media Terrifies Them:** Tucker Carlson getting 100M+ views on Twitter, Joe Rogan reaching more people than CNN, and citizen journalists breaking real stories demonstrates their narrative control collapsing—hence desperate attempts to censor, deplatform, and criminalize independent journalism.
- **The Great Awakening Counter-Narrative:** As cabal media collapses, people increasingly see through propaganda, trust independent sources, and recognize they've been lied to about everything—this awakening accelerates exponentially as each person who sees begins showing others, making narrative control impossible to restore.

#### **Entertainment & Cultural Degradation:**

- Hollywood, music industry, and entertainment companies actively promote degeneracy, normalize evil, and mock traditional values through coordinated programming.
- Occult symbolism pervades entertainment industry, openly celebrating satanic themes.
- Disney specifically targets children with LGBTQ+ indoctrination and sexualized content.

#### **Depopulation Agenda:**

- Cabal openly advocates population reduction through abortion, birth control, sterilization, euthanasia, and manufactured health crises.
- Gates, WHO, and UN population fund promote vaccines and "family planning" in developing nations that reduce fertility.
- Promotion of homosexuality, transgenderism, and rejection of family directly serves depopulation goals.

### **UN & Global Governance:**

- United Nations operates as shadow government pushing one-world agenda through treaties that override national sovereignty.
- WHO pandemic treaty would grant unelected bureaucrats authority to mandate lockdowns, vaccines, and movement restrictions globally.
- Agenda 2030 and "sustainable development goals" code language for centralized control over energy, property, and resources.

### **Vatican & Religious Infiltration:**

- Catholic Church infiltrated at highest levels, promoting globalism, climate agenda, and interfaith compromise while covering up abuse.
- Pope Francis consistently advances cabal talking points while undermining traditional doctrine.
- Ecumenical movement seeks to merge religions into one-world spirituality under global authority.

### **Breakdown of Family:**

- Feminism, no-fault divorce, and family court systems deliberately destroy nuclear family as resistance unit against state control.
- Promotion of daycare, public education, and dual-income necessity removes parents from child-rearing.
- Redefining marriage and promoting transgenderism to children attacks family at foundational level.

### **Why Trump Threatens Them:**

- Trump represents nationalist resistance to globalism—America First directly opposes their borderless, one-world system.
- His exposure of fake news broke their narrative control monopoly.
- Peace deals threaten their war-profiteering machine.
- Intercepting cartels in South America, sinking drug boats and seizing tankers disrupts cabal cash flow.
- Energy independence undermines their climate control agenda.
- Appointment of constitutional judges threatens their judicial activism.
- His willingness to name enemies (deep state, fake news, RINOs) gives patriots language and courage to resist.

### **The Spiritual Reality:**

- This is fundamentally spiritual warfare—cabal serves principalities and powers opposed to Father's Kingdom.
- Their symbols, rituals, and timing reveal occult/satanic allegiance.
- They mock God, celebrate perversion, and actively work to prevent Kingdom advancement.
- Trump's unlikely rise and survival despite constant attacks suggests divine protection for his assigned purpose.
- Sons operating from the Council with prophetic authority represent an existential threat to their system—hence the attacks on anything genuinely supernatural or prophetic.

## Father's Reformation Strategy:

- The cabal being exposed accelerates awakening—people seeing evil clearly prepares them for Kingdom alternatives.
- Trump serves as wrecking ball against their structures, creating space for sons to build Kingdom systems.
- Nations seeking sovereignty over globalism creates openings for Kingdom leaders in government.
- Media collapse and rise of independent journalists shifts information control back to individuals.
- Decentralization of power (tech, media, education, medicine) enables grassroots Kingdom advancement.
- Sons in business, not politicians, are positioned to implement actual solutions in seven mountains.

## Postscript:

### Israel's Recruitment of American Pastors to Zionism:

- **Christians United for Israel (CUFI):** Founded by John Hagee, CUFI is the largest pro-Israel organization in America with over 10 million members—functions as lobbying arm recruiting pastors through conferences, materials, and messaging that equates criticism of Israeli government with antisemitism and betrayal of God.
- **All-Expense-Paid "Educational" Trips:** Israeli government and pro-Israel organizations sponsor free luxury trips to Israel for pastors, ministry leaders, and influential Christians—participants receive VIP treatment, tours of holy sites, meetings with Israeli officials, and return home as vocal advocates for Israeli policy regardless of biblical scrutiny.
- **Birthright-Style Pastor Programs:** International Fellowship of Christians and Jews (IFCJ), Eagles' Wings, and similar organizations offer completely free 7-10 day Israel trips for pastors worth \$3,000-\$5,000+ per person—participants tour Israeli military sites, meet IDF soldiers, receive Israeli narrative about conflicts, and return to preach that narrative from American pulpits.
- **The Indoctrination Model:** These trips carefully control what pastors see—Israeli settlements presented as biblical fulfillment, Palestinian perspectives completely excluded, military actions framed as defensive, Old Covenant promises taught as current entitlements, and eschatology weaponized to support modern political state.
- **Kairos Company & Pastors for Israel:** Organizations specifically designed to give American pastors "life-changing Israel experiences" that transform them into Zionist advocates—participants return to organize church trips, raise funds for Israeli causes, and preach that supporting Israel (the political state) is supporting God's chosen people.
- **Covenant Confusion:** These programs deliberately conflate ancient biblical Israel with the modern political state established in 1948—teaching that Romans 11 requires Christians to support Israeli government policy without question, despite that government being largely secular/atheist and the nation rejecting Messiah.
- **The Prosperity Gospel Connection:** Many prominent prosperity gospel preachers (Kenneth Copeland, Benny Hinn, Paula White, Rod Parsley) are aggressively pro-Israel, having received multiple free trips and financial connections to Israeli interests—they preach that blessing Israel (financially supporting the modern state) results in personal financial blessing.

- **Hagee's "70 Years of Miracles":** John Hagee's ministry built massive platform by teaching that 1948 Israeli statehood and 1967 Six-Day War were prophetic fulfillments requiring Christian support—his books, conferences, and media empire convince millions that American blessing depends on supporting Israeli military actions.
- **The Temple Institute & Third Temple Obsession:** American pastors recruited to support rebuilding the Jewish temple on Temple Mount (where Dome of the Rock stands)—ignoring that Jesus is the temple, the veil was torn, and animal sacrifices ended—yet millions of Christians fund organizations literally preparing for "synagogue of Satan" Jesus warned about.
- **AIPAC & Evangelical Alliance:** American Israel Public Affairs Committee (AIPAC) coordinates with evangelical leaders to ensure pro-Israel political candidates receive church support—pastors mobilize congregations to vote for politicians who send billions in US tax dollars to Israel annually.
- **The Scofield Reference Bible:** The insertion of Dispensationalist footnotes into this widely-used study Bible (first published 1909, funded by questionable sources) convinced generations of American pastors that modern Israel equals biblical prophecy fulfillment—creating theological foundation for political Zionism in American churches.
- **TBN & Christian Broadcasting Networks:** Trinity Broadcasting Network, Daystar, and other Christian TV networks receive funding from pro-Israel sources and consistently platform Zionist teachers—reaching millions of viewers with message that Israel (political state) must be supported to avoid God's judgment.
- **Holocaust Education as Recruitment Tool:** Pastors taken to Yad Vashem Holocaust memorial as part of Israel trips—legitimate tragedy weaponized to create emotional shield making any criticism of Israeli policy equivalent to Holocaust denial or antisemitism.
- **Anointing Oil & Holy Land Product Sales:** Pastors return from free trips selling Israeli products, "anointing oil from Jerusalem," Dead Sea cosmetics, and Jewish prayer shawls to congregations—creating ongoing financial connection between American churches and Israeli economy.
- **The "Blessing" Guilt Trip:** Genesis 12:3 ("I will bless those who bless you") constantly invoked to suggest that America's prosperity depends on supporting modern Israel—with implied threat that any criticism brings curse—despite verse referring to Abraham and his seed (Christ), not a political nation-state.
- **Ignoring Israeli Persecution of Christians:** Pastors on these curated trips never see the reality—Christians in Israel facing discrimination, church properties confiscated, missionaries arrested, Messianic Jews harassed—contradicting the "Judeo-Christian alliance" narrative they're taught to preach.
- **Chuck Missler, Hal Lindsey, and Prophecy Conferences:** Popular prophecy teachers built ministries on charts showing how modern Israel proves end-times nearness—hosting expensive Israel tours where attendees pay thousands for "prophetic insights" while being fed Zionist political narrative.
- **Cufi's Night to Honor Israel Events:** Massive arena events in American cities where pastors bring congregations to "honor Israel" with worship, prayers, fundraising appeals, and pro-Israel political speeches—attendees often give sacrificially to Israeli causes while their own communities have unmet needs.
- **The Evangelical-Settler Alliance:** Some ministries specifically support Israeli settlers in West Bank, providing funds for "biblical land reclamation"—American Christians financing the displacement of indigenous populations including Palestinian Christians.

- **Netanyahu's Evangelical Strategy:** Israeli Prime Minister Benjamin Netanyahu explicitly cultivated American evangelical support, appearing at CUFI events, meeting with prosperity preachers, and coordinating political messaging—recognizing evangelicals as more reliably pro-Israel than American Jews.
- **The Preterism Threat to Zionism:** One reason preterist theology faces such fierce opposition—if temple destruction fulfilled Old Covenant prophecies, if Israel's restoration happened in Christ, if New Jerusalem is spiritual not political—then entire theological foundation for Christian Zionism collapses, cutting off billions in American support.
- **Follow the Money:** Organizations funding these "free" trips include shadowy foundations, Israeli government tourism grants, and defense contractors who benefit from US military aid to Israel—pastors become unpaid lobbyists for foreign policy that enriches weapons manufacturers while bleeding American taxpayers.
- **The Abrahamic Accords Exception:** When Trump brokered peace deals between Israel and Arab nations, many Zionist pastors were conflicted—their eschatology requires conflict for prophecy fulfillment, yet Trump was their hero—revealing that their theology serves political agenda rather than biblical truth.
- **Silencing Messianic Voices:** Messianic Jews (who actually believe in Jesus) often oppose political Zionism and see the deception—but their voices get suppressed by American evangelical gatekeepers who prefer atheist Israeli politicians over actual Jewish believers in Messiah.
- **The Ultimate Irony:** American pastors support rebuilding a temple for animal sacrifices that deny Christ's finished work, support a state that rejects Jesus as Messiah, and call it "biblical"—all while millions of Christians in Middle East (including Palestinian believers) suffer, ignored because they don't fit the Zionist narrative.

These points expose how systematic the recruitment is—it's not organic biblical conviction but coordinated indoctrination using free luxury trips, emotional manipulation, financial incentives, and eschatological fear to turn American pastors into Israeli government advocates who then convince their congregations that supporting the modern political state of Israel is synonymous with supporting God's plan.
